The certification body has performed an audit of the above product quality system covering the design, manufacture and final inspection of the certified product. The quality system has been assessed, approved and is subject to continuous surveillance according to directive 2006/42/EC machinery directive & 2006/95/EC low voltage directive.

The certificate is issued under the following conditions:

- 1.It applies only to the quality system maintained in the manufacture of above referenced models and it does not substitute the design or type examination procedures, if requested.
- 2.The certificate remains valid until the manufacturing conditions or the quality systems are changed.
- 3.The certificate validity is conditioned by positive results or surveillance audits.
- 4.The CE mark as shown above can be used, under the responsibility of the manufacturer, after completion of an EC declaration of conformity and compliance with all relevant EC directives. The statement is based on a single evaluation of one sample of above mentioned product. It does not imply an assessment of the whole production.
